

5 Gang Vertical Mower

Transport Mode

The five gang vertical mower from Kesmac is based on the proven Kesmac mower reel design. Kesmac machines are sold around the world, with a reputation for durability. The vertical mowers are precision built with quality materials to ensure a long trouble free working life, backed by after sales service second to none. This vertical mower is a valuable tool for golf courses, parks, recreation areas, turf maintenance and sod producers.

The Kesmac Vertical Mower is the perfect solution to your thatch problems.

- Removes thatch build up
- Allows increase aeration
- More effective utilization of fertilizer
- Helps prevent diseases
- Better water penetration
- Economical

Thatch removal adds the benefit of up to two weeks earlier "spring green up" at the start of the season.
